

Transmission Only Packages

Here is a choice of three low-power FM transmission systems.

These packages can be adjusted to suit the needs of your project.

If you are interested in ordering a system, please [click here](#).

You will also need to install an antenna mast or tower. For advice on antenna masts and towers, please feel free to contact us.

Â

100 Watt ERP

Includes: 1 40 Watt FM Transmitter, 1 Stacked Dipole Antenna, 1 RF Antenna Cable (40m), 1 SWR/Power Meter, PL 259 Connectors, 1 Lightning Protection (includes ground cable and copper tube), Power Strip, 1 Voltage Regulator, Tools (Toolkit, Multimeter, Soldering Iron, Tape, Cable Ties etc.)
