

Radio Station Equipment Hire

Are you based in the UK? Â

Do you have a short term broadcast or restricted service licence (RSL) planned?

Do you need radio equipment?Â

If the answers to these questions is yes, you may want to hire a complete radio station (or some radio station equipment) for your broadcast. Â We have all the equipment you need to start broadcasting, available for hire as a complete package or as individual items at very competitive rates.

We have supplied radio station equipment for hire to a range of stations for RSLs around the UK, including in London, Sheffield, Leicester, Milton Keynes and Woking. Â We can ship items to anywhere in the UK mainland.

Â

Delivery, Installation and Collection

We can deliver the equipment for you to install or send a highly experienced engineer to install the station equipment for you, get the station on the air and show your staff how to use and look after the equipment while it's in your hands. Â We can then arrange collection, or if you would prefer to return the equipment to our warehouse in London, that is also an option.

Please download the template quotation below to see the costs involved in hiring radio station equipment from us.

If you would like to place an order or have any questions, please do contact us by phone on 07525 146782 or by email at sales (at) radioactive.org.uk.Â

Let us help you get on the air as quickly and efficiently as possible!Â
